Configurations evaluated by each worker
Configurations evaluated by each worker
Worker 0 · best 98.8%
Worker 1 · best 99.2%
Worker 2 · best 99.8%
Individual trial result
Worker 0 · best 2.3%
Worker 1 · best 21.5%
Worker 2 · best 0.3%
Individual trial result
Faint points: trial results. Step curves: best result found so far by each worker.
600 atoms per trial · search-sample results, not independent validation · local trial order, not elapsed time.
