
Single pass
Captured at end (8)
Not captured at end (27)
v_z (m/s)
Position (mm)
Central longitudinal slice: $x = y = v_x = v_y = 0$ · stochastic recoil projected onto z
End-of-run classification at 100 ms: distance ≤ 5 mm and speed ≤ 1 m/s (1D model).
Both panels show the same trajectories; the right panel is a central zoom.
